

## CLOVER PIN

An Original Design by Emilie Obaldo McGraw

Use **11-inch** long green plastic coated copper beading wire (18 gauge). Make first round loop starting at the center by twisting wire **TWICE** to make this first loop with .33-inch diameter. Make 2 more loops on **EACH** side of the first loop. Twist the 2 remaining sections of wire together, bend and connect each wire tip to each side loop. Practice makes perfect.

**Rnd 1:** Slip st in first wire loop (on your right facing the 3-loops), ch 1, \*sc, hdc, dc, 16 trc, dc, hdc, sc.\*

**Rnds 2 and 3:** Repeat from \* to.\* Sl st to first sc. Fasten off.
